Scout Boats, Inc. Debuts All-New 177 Series

Summerville, SC – Scout Boats, Inc. has debuted an all-new 17' line of models called the **177 Series**. Four models make up the Series, the **Sport**, **Sportfish**, **Dorado** and **Winyah** models. This series is part of 19 new model introductions Scout has made over the past three years alone.

"We designed the 177 Series around four identified customer types and what packages they would like to see in their respective models," said Scout CEO/Owner Steve Potts. "We've created a model that is ideal for the cruiser, the casual fisherman, the more serious fisherman, etc, yet all on a dependable platform that runs great both inshore and offshore."

The 177 Series boasts many standard features that otherwise come as options on competitive models. With its flared bow, perfect for deflecting spray and keeping you dry while underway, it also has a comfortable beam of 7'3" for stability. Other standard features include an integrated 20 gallon fuel tank, stainless steel flush mount rod holders, battery switch and tray, bilge pump and bait well.

The 177 Sport comes with a center console w/ tilt steering, sport seat w/ backrest, an aerated console bait well, console cushion set, boarding step and a 72 quart cooler.

The 177 Sportfish also comes with a center console w/ tilt steering, aerated console bait well and a boarding step, but it also sports three baseplates, two extensions, two tempress seats, windscreens and a console rail.

Beyond the standard features that each model has in common, the dual console 177 Dorado also comes with a port side bait well, bow cushion and a full bow rail.

The more serious fisherman will find an aerated console bait well, four horizontal rod racks, two three-tube vertical rod holders, two SS flush mount rod holders, poling platform, push pole holders, two deck hatches w/ storage and a release well / fish box helm seat.

All four models with the series come with options such as hydraulic steering, trim tabs, LED trim indicator switch, Magic Tilt trailer and four optional hull colors choices just to name a few.

Scout 177 Series PR**Page 2**

Scout builds sportfishing, fish 'n ski, walk around, flats and bay boat models ranging from 15' to 35'. Since it's founding over two decades ago, Scout Boat's goal has been to manufacture the best-built boats in its distinctive sportfishing niches. Each Scout hull is a true original, as the in-house research and design team works closely with engineering to take concepts from blueprint to production more efficiently, growing the company's world-class reputation for quality, strength, durability and value.
