### **Scout Unveils Largest Model in the Dorado Series**

**SUMMERVILLE, SC— Scout Boats, Inc.** recently unveiled the all-new **275 Dorado** at its 2014 Model Year Dealer Meeting, held September 26 & 27, 2013, in Charleston, SC. The model stole the show with the dealers as well as the customers who attended the 2<sup>nd</sup> annual Customer Sales Expo immediately following the Dealer Meeting.

The 275 is the largest model in the Dorado fleet, and sets a new industry standard for a family-friendly coastal fishing vessel. Built on Scout's ultra-fuel efficient NuV3 hull design which significantly saves the customer in operating costs annually, the model is not only efficient but it performs as good as it looks. The custom fiberglass built-in hard top adds to the stunning look of the boat but it's also useful in numerous ways. Not only does it provide shade and protection from the elements, but it also houses cup holders and smartphone storage pockets that are easily accessible, speakers for the Fusion stereo with iPod jack, four flush mount rod holders, LED lights and stainless steel hand rails.

Beneath the hard top you'll find a helm smartly designed with all necessary controls within comfortable reach. Pilot the boat from a deluxe fiberglass back captain's chair with arm rests, enjoy LED lights in the cockpit, five tackle drawers, a safety locker with a toolkit and a fire extinguisher and console lockable storage areas on both sides for personal items. The standard sink on the starboard side behind the captain's chair can be accompanied by the optional grill, and there's a spacious built-in 152 quart cooler/storage compartment port side.

The bow offers plush seating around an integrated fold down table ideal for entertaining, an accessible built-in cooler underneath the fold down table, armrests on the bow seating port and starboard, stainless steel recessed grab rails and a vertical windlass with polished stainless anchor roller, road and chain.

Stepping into the large aft cockpit fishing area, you'll find in-floor port and starboard fish boxes with diaphragm pump, a 25 gallon aft bait well, another 25 gallon aft storage well perfect for stowing dock lines and fenders, a wave gate with a fold-away stern seat that provides convenient access to the swim platform with Flexiteek and two more flush mount rod holders at the transom. The cockpit also showcases optional smartly designed fold down port and starboard side bench seating that complements the standard aft facing seating – all of which can be configured numerous ways depending on your entertaining needs.

To add to your entertainment options, an optional cockpit table and support bar have a dedicated storage area in the completely private head compartment, which also contains a locking door, self-contained porcelain head, opening porthole and vanity/sink/storage area. There's even a towel rack.

C-Zone digital switching comes standard, which means you can easily set the key fob to turn on and off electronics on the 275 with the touch of a button.

## **All-New Scout 275 Dorado**

### **Page 2**

Scout builds sportfishing, fish 'n ski, walk around, flats and bay boat models ranging from 15' to 35'. Since its founding two decades ago, Scout Boat's goal has been to manufacture the best-built boats in its distinctive sportfishing niches. Each Scout hull is a true original, as the in-house research and design team works closely with engineering to take concepts from blueprint to production more efficiently, growing the company's world-class reputation for quality, strength, durability and value.
